Introduction

'Think globally, and act locally'

In front of you is our annual report for 2020, in which we give accountability for our income and expenditure in 2020. We publish this annual report for environmental and cost reasons online only.

AbortusInformatie.nl is an innovative human rights NGO organisation that started 40 years after the first abortion clinic opened in the Netherlands, which was the Arnhem Mildredhuis, on 27 February 1971. Exactly 40 years later, 27 February 2011 AbortusInformatie.nl was launched. AbortionInformation.eu is our English name.

Human rights organisation

AbortusInformatie.nl is a human rights organisation that educates about abortion.

We are against all forms of violence relating to abortion. Everybody has their own opinion on the topic and different ways of thinking, but violence is not the answer.

Abortusinformatie.nl was set up by women who regret their abortion. We missed crucial information in the decision making process of our abortion. Many of us say that if we had realized certain things in advance, and seen the images of what babies can look like after enduring an abortion, we would not have made the decision to kill our own offspring through abortion - we would have found other alternatives for the situation we were in. All board members have affinity with abortion.

We build awareness on the reality of abortion, so that true 'informed consent' can be given based on facts and true understanding.

We do this amongst others by showing medical scientific images.

AbortusInformatie.nl also helps women considering abortion, who decide to keep their baby, or regret their abortion afterwards.

We bring innovative new ideas to the country, and as trailblazers have vision, and are entrepreneurial!

Please consider a donation if you think that what we do is important. We can only do this with the help of people of good will. Charity with tax-deductible ANBI status in the Netherlands, stichting:

Board

Our board comprises a chairman, secretary and treasurer.

The present composition of the board can be found at www.abortusinformatie.nl/organisatie/bestuur.pdf

Remuneration

Board members receive no remuneration as work is done on a voluntary basis.

Staff / volunteers

There are no hired employees. Work was carried out by unpaid volunteers. These were engaged in supporting our work for our projects in the short and long term.

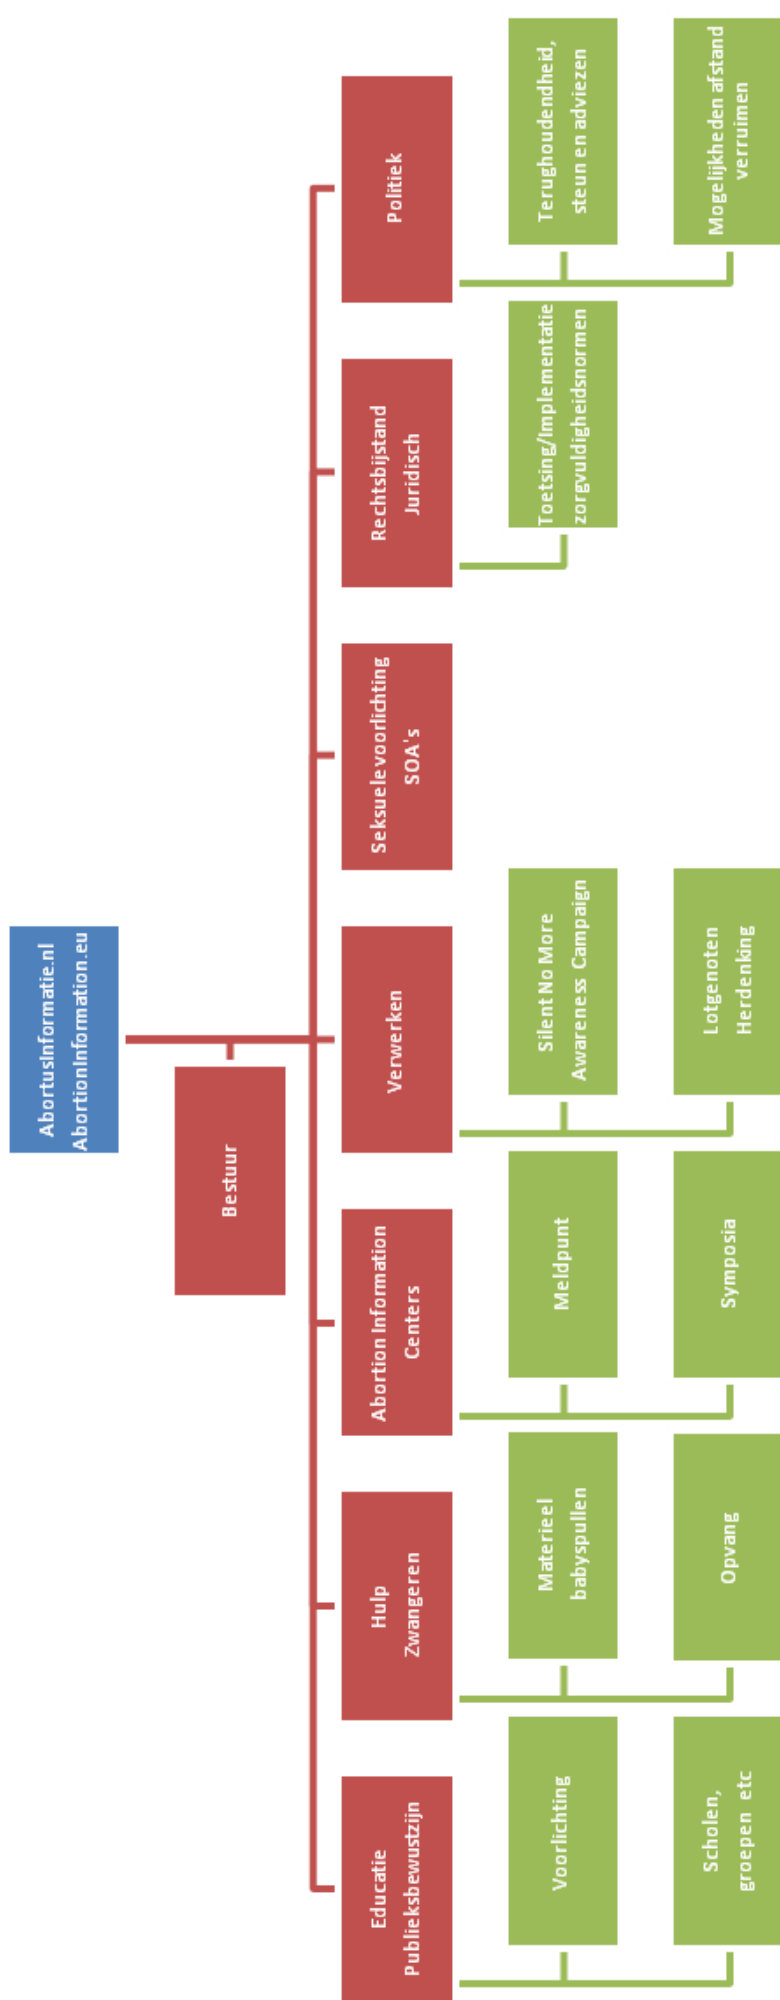

Strategy

Because we find it inhumane that arms and legs are torn off children, babies are poisoned, starved or beheaded and their lives intentionally prematurely ended through abortion, we started this human rights organization. In Dutch, our foundation is called AbortusInformatie.nl, in English AbortionInformation.eu

1. The goal of the foundation is
 - (a) to be active in the area of human rights, sexuality, abortion and the possible consequences of it, amongst others, by providing information, support and shelter;
 - (b) carry out further actions which, in all senses of the word, relate to or could be conducive to above mentioned areas.
2. The foundation aims to achieve her goals, amongst others, by:
 - (a) providing information and education to promote public awareness on abortion: procedures, consequences, experiences and development of a baby in the womb;
 - (b) supporting women with an unplanned pregnancy (medical, material, financial, emotional and mental help), also after the birth of their baby;
 - (c) offering special provisions and courses for parents and the child, in order to promote their well being;
 - (d) setting up 'abortion information centers', a contact point for forced abortions, and organize platform days, symposia and theme days;
 - (e) providing opportunities for help after abortion (or sexual abuse) through so-called healing groups/retreats, peers' days, commemorative monuments and/or memorial services; the foundation also aims to offer women (post abortion) consolation, information, support and healing;
 - (f) providing sexual education to help prevent unplanned pregnancy (prevention through education), sexually transmitted diseases STD's etc., as well as offering medical diagnosis of STD's and other related diseases;
 - (g) attention to monitoring and ensuring implementation of due care standards surrounding abortion, also availability of an adequate offer of legal assistance with regards to the abortion issue;
 - (h) promoting the kind of legislation and regulations, as a result of which more restraint and a careful approach towards abortion will be taken, with more options coming into being for expectant mothers to give up their (not yet born) baby, as well as issuing advice and proposals to the government in this matter;

all in the broadest sense of the word.

The foundation aims to operate on both micro and macro level. The foundation is open to cooperation with other individuals and/or legal entities as well as with other organizations in the above mentioned areas.

Strategy continued:

The foundation is established for an indefinite period.

The assets of the foundation are to be formed through sponsoring, subsidies, grants, donations, inheritances and legacies and other income resources.

Board members receive no remuneration.

Comments

The board is grateful for all the generous donations this year, which allowed us to continue this work.

In 2020 we were able to, amongst other things, do the following:

- Printed new awareness sign
- Items for healing retreats to work through a past abortion
- Items for education, and making baby models
- Some travel expenses

Along with this, office supplies such as A4 paper, SD's/USB's, operational costs such as websites, phone, admin software, insurance, banking, post office box etc.

Activites

Due to requests, in 2020 we sent all senators in Argentina information before they started discussing legalizing abortion 29 December 2020. They can no longer say they didn't know.

Gave numerous interviews, including "Abortus Kruistocht" TV Danny op Straat (beginning at 3.42 <https://youtu.be/VBAzAGJip2M>) with Lillianne Ploumen in Amsterdam, mentioning [805] abortion complications in 2017 Waz. She found the size of the images misleading, but a few days later a new ant was discovered, shown bigger than life in the media. Is that also misleading? Also interviewed in The Hague, and by Denmark due to earlier Aljazeera interview, and was approached by Dahl TV (De Outsiders). Was also asked to hold a speech outside Amsterdam City Hall, and developed some 'Rutte quotes' memes.

We had around 170 requests for helping pregnant women, and so many beautiful babies were born! Baby articles were generously donated. Also various requests for AbortusPijlStopper.nl. Some contact due to abortion regret, for example a moslima shared her story. We invested in 2 new healing programs in the Netherlands for recovery after abortion, including leader training. Brochures were also requested for handing out. Our first 2in1 space offering free baby articles opened 11.11.11. Since then other organizations have started to offer similar help, or a sponsorship plan, so after 10 locations throughout The Netherlands, we phased this out just before corona 20.2.2020.

Various street awareness campaigns were held in various cities, including but not limited to Harderwijk, in front of a FVD political meeting in Zoetermeer, government in The Hague on the day of the march for life, using a cloth display the first time, and outside the International Peace Palace on the 75th anniversary UN Peace Day. This Peace Palace is the seat of the International Court of Justice of the United Nations, in The Hague.

Consideraciones sobre el debate del aborto en el senado - por favor lea

Amsterdam, 28 de Diciembre de 2020

Estimados señores y señoras del Senado de Argentina,

Antes de la votación del 29 de Diciembre y mientras ustedes discuten sobre la legalización del aborto en el Senado de Argentina, la ruego tenga en cuenta las adversidades de los liberales Países Bajos, a nivel masno tanto como microsocial.

1) Mire este video de 2.2 minutos para que sepa que y a elegir: si no hay nada de malo en ello, no hay necesidad de ocultarlo. <https://vimeo.com/398600977>

2) Tenga en cuenta el costo demográfico y económico: En tan sólo 22 años (1 generación) entre 1962 y 1983, nuestra tasa de natalidad disminuyó de 3,22 a 1,47 hijos por mujer, en promedio, debido al aborto, la anticoncepción y la esterilización. https://www.abortusinformatie.eu/doc/Demographics_and_cost_of_abortion.pdf

Este tipo de imposición puede afectar drásticamente a la cantidad de contribuyentes necesarios para sostener financieramente la sociedad argentina en tan sólo 4 generaciones (unos 80 años - dando a luz hijos a los 20 años de edad). Tenga cuidado.

Desde que se abrió nuestro primer centro de abortos provocados, en 40 años, debido al aborto, nuestro pequeño país de los Países Bajos ha perdido alrededor de 820 mil millones de euros GDP. Según <https://tradingsconomics.com/country-his/gdp-per-capita>, su PIB per cápita es actualmente +7-12 del nuestro en los Países Bajos (o incluso algo más, dependiendo de la fuente), teniendo en cuenta esto, proyecta su economía 40 u 80 años más adelante.

Veá el gráfico: Después de 4 generaciones se llega a un 10% o un 120% de población de partida, con tasas de natalidad de 1.2 o 2.3 hijos por mujer en promedio respectivamente. Cada bebé eliminado borra el resto de las generaciones futuras. Piense en el futuro.

Pérdida de ingresos de tesorería debido al aborto

Personas # pendas tras 1 año

3) La legalización del aborto no redujo las tasas de aborto en los Países Bajos. La página 37 del informe WAZ del gobierno de 2012, mostró que los abortos en las mujeres holandesas aumentaron un 85% entre 1975 y 2005 (15.500-28.738 bebés), mientras que la proporción de abortos a nacidos vivos por año aumentó de 29 a 123 entre 1990 y 2005 (página 37).

El aborto va en contra de los Derechos del Niño, ratificado por Argentina: Artículo 3.1 "En todas las acciones concernientes a los niños, que tomen [...] los tribunales [...] una consideración primordial a que se atenderá será el interés superior del niño." <https://www.onhcr.org/SR/ProfessionallInterest/Pages/CRC.aspx> Preámbulo: "al niño, por su falta de madurez física y mental, necesita protección y cuidado especiales; incluso la debida protección legal, tanto antes como después del nacimiento", y el artículo 6.1 "... todo niño tiene el derecho intrínseco a la vida" "6.2 "Los Estados Partes garantizarán en la máxima medida posible la supervivencia y el desarrollo del niño." (énfasis mío).

4) Por favor infórmese con esta entrevista personal que hice con 5 personas en Argentina hace un tiempo, sobre mi propio aborto, violación, posibles efectos a las mujeres, etc. http://www.pu-sajto.com.ar/wp-content/uploads/2013/09/Video_Entrevista-irene-van-der-Wende.pdf

¿El mundo está superpoblado? Mi casa, con un jardín frontal y un jardín trasero multiplicado por 7 mil millones de habitantes de la tierra, solo ocuparía el espacio de Francia y Alemania, dejando al resto del mundo para ganados, cultivos, infraestructura, naturaleza, etc.

Puede encontrar más información sobre el aborto en los Países Bajos en el siguiente enlace: <http://www.lifenews.com/2014/11/12/holland-a-pro-abortion-country-tolerant-on-everything-except-unborn-babies/> Tenga cuidado: No es todo lo que parece. Y, por supuesto, si, es una decisión difícil, ya que se trata de quitar la vida, una madre que mata a su propio hijo.

Gracias por tomarse el tiempo para informarse antes de tomar una decisión. Rezo para que la sabiduría sea atendida.

Si tiene alguna pregunta, no dude en ponerse en contacto conmigo.

Los recursos más valiosos que posee un país son sus propios ciudadanos.

Testimonies: Abortion Photos Work

Long-time supporters of CBR have for years read about the power of abortion pictures to reach people and to save children from abortion. The following are some testimonies that demonstrate some of the ways in which God uses the photos to speak to people's hearts.

Post-abortion woman moved to become a pro-life leader

"It was after seeing the CBR [abortion] images -- especially the 8-week baby with ribs and the severed hand next to a pencil -- that I cried and cried for three days on my living room floor. What have I done?! At the end of three days, I vowed: 'The world needs to see this!' Shortly afterwards, I contacted Gregg Cunningham and asked for permission to use one of the pictures on my private letterhead, as the world needs to know. Before long, Salome van der Wende became the founder of CBR-Netherlands and she has spoken to audiences worldwide.

Saved her preborn child's life

A pregnant woman was planning an abortion when she found <https://www.abortusinformatie.nl/>. Ms. van der Wende reached out to her and, thankfully, this woman changed her mind. She wrote: "I thought abortion was the right thing, but I started researching. The information you give puts things in perspective ... the gruesome details of how they actually perform an abortion and how they dismember babies.

[My son] is so perfect and I can't imagine life without him. What if I hadn't stumbled on your info? I could have taken an innocent life and killed my baby by having an abortion. My son's father and I are now engaged and planning our wedding. I just want you to know that your info is resourceful and literally saved my baby's life. Thank you."

Regrets from woman who took morning after pills

A European woman wrote us while visiting our website: "[I've] been thinking about it to the point of repenting from having used morning after pills a few times, years ago. Plus I am convinced that pro-life women ought never to use birth control pills as they are abortifacients. I have never used those anymore since becoming a Christian, not even since I got married. I believe anything that possibly kills the unborn baby... should be illegal..." (48-year-old who found CBR

through Wikipedia, March 23, 2020) Posts of this sort are important reminders of how effectively God uses CBR even in foreign countries.

Photos could have saved her baby

"When I was very young I had an abortion [in the] 1970's, no information, no support." (68-year-old woman from California who found CBR's AbortionNO.org while looking for DVDs to circulate to young women and men, CBR web survey, April 20, 2020)

Since CBR started using abortion videos and photos to educate the public about abortion in 1991, a number of pro-life groups and individuals have followed our example and are now also using our photos and signs on campuses and street corners, showing people the truth about abortion. Pray that more pro-life people and leaders will recognize that we cannot win the battle if we hide the truth.

Dutch volunteers stand with CBR-Netherlands founder Salome van der Wende on Valentine's Day 2020. A police car can be seen in the background of the 8-week aborted baby photo. LOVE means giving your preborn baby a birth day.

An invalid legal issue arose with the gemeente Zwolle, so we requested the laws “welke volgens uw mensen mij zouden verbieden beelden te tonen omdat deze misschien door iemand als ‘aanstootgevend’ of ‘kwetsend’ zou kunnen worden ervaren. Immers, WOM artikel 5 geeft aan dat ‘een voorschrift, beperking of verbod kan geen betrekking hebben op de inhoud’; ‘geen feit is strafbaar dan uit kracht van een daaraan voorafgegane wettelijke strafbepaling’ (Wetboek van strafrecht, artikel 1.1); en een burgemeester mag een manifestatie alleen verbieden ter bescherming van de gezondheid, in het belang van het verkeer, of ter bestrijding of voorkoming van wanordelijkheden.”

Future strategy

The coming years promise to be dynamic years.

A large part of our activities is related to the amount of money that is donated.

We operate solely on donations from people like yourselves.

We are preparing for the future, in a sustainable manner, including innovative ideas, bringing together people, knowledge and skills. We hope to expand our support bases with people interested in sharing the realization of our goals, on both micro and macro level.

Donors and volunteers

Since its inception, a small army of helpers have aided AbortusInformatie.nl, with some 80 volunteers having helped us in some way or the other with their precious time and skills/talents, including wonderful brave people who help do street awareness displays, etc.

We are appreciative of all who contributed so generously with their gifts, so that we were able to further this work in 2020. We look forward to all the changes ahead of us! Would you like to join us? Let us know what you would like to do!

Special thanks

We are grateful for your support, trust and commitment. Grateful for men, women and young people who, with functioning conscience and conviction, stand up courageously and join us, to defend the lives of babies who have no voice themselves. We want to thank you all for your support and commitment in recent years. Thanks to you, we have been able to work on building this organization, to innovate a new voice in the field of human rights, not only through education, but also through actual practical help. Many have helped with this. We are extremely grateful for all those people who have helped make everything possible.

If you see the value of what we are doing, and you would like to partner with us in educating about abortion, then please e-mail us at info@abortusinformatie.nl or info@abortioninformation.eu, find out or let us know how you would like to help, or make a donation by using the bank data below. That would be so appreciated!

AbortionInformation.eu and AbortusInformatie.nl works on exposing this enormous human rights issue. To do this, we need to allow people to see it for what it really is. In just a few minutes people understand the humanity of the unborn child, and what abortion does to them.

We would love to step up the exposure with your help, on our awareness displays, help etc. - help us arrange presentations for your friends, a group, church or home group, so they too can think about how they can get involved.

Would you like to help us make a difference? We can't do what we do, without you! Join! You can also support us and make a contribution to help defend babies in the mother's womb, and further this work.
