Introduction

'Think globally, and act locally'

In front of you is our annual report for 2022, in which we give accountability for our income and expenditure in 2022. We publish this annual report for environmental and cost reasons online only.

AbortusInformatie.nl is an innovative human rights NGO organisation that started 40 years after the first abortion clinic opened in the Netherlands, which was the Arnhem Mildredhuis, on 27 February 1971.

Exactly 40 years later, 27 February 2011 AbortusInformatie.nl was launched. AbortionInformation.eu is our English name.

Human rights organisation

AbortusInformatie.nl is a human rights organisation that educates about abortion.

We are against all forms of violence relating to abortion. Everybody has their own opinion on the topic and different ways of thinking, but violence is not the answer.

Abortusinformatie.nl was set up by women who regret their abortion. We missed crucial information in the decision making process of our abortion.

Many of us say that if we had realized certain things in advance, and seen the images of what babies can look like after enduring an abortion, we would not have made the decision to kill our own offspring through abortion - we would have found other alternatives for the situation we were in.

All board members have affinity with abortion.

We build awareness on the reality of abortion, so that true 'informed consent' can be given based on facts and true understanding.

We do this amongst others by showing medical scientific images.

AbortusInformatie.nl also helps women considering abortion, who decide to keep their baby, or regret their abortion afterwards.

We bring innovative new ideas to the country, and as trailblazers have vision, and are entrepreneurial!

Please consider a donation if you think that what we do is important. We can only do this with the help of people of good will. Charity with tax-deductible ANBI status in the Netherlands, stichting:

Our board comprises a chairman, secretary and treasurer. The present composition of the board can be found at <https://www.abortusinformatie.nl/bestuur2022/>

Remuneration

Board members receive no remuneration as work is done on a voluntary basis.

Staff / volunteers

There are no hired employees. Work was carried out by unpaid volunteers. These were engaged in supporting our work for our projects in the short and long term.

Strategy

Because we find it inhumane that arms and legs are torn off children, babies are poisoned, starved or beheaded and their lives intentionally prematurely ended through abortion, we started this human rights organization. In Dutch, our foundation is called AbortusInformatie.nl, in English AbortionInformation.eu

1. The goal of the foundation is
 - (a) to be active in the area of human rights, sexuality, abortion and the possible consequences of it, amongst others, by providing information, support and shelter;
 - (b) carry out further actions which, in all senses of the word, relate to or could be conducive to above mentioned areas.
2. The foundation aims to achieve her goals, amongst others, by:
 - (a) providing information and education to promote public awareness on abortion: procedures, consequences, experiences and development of a baby in the womb;
 - (b) supporting women with an unplanned pregnancy (medical, material, financial, emotional and mental help), also after the birth of their baby;
 - (c) offering special provisions and courses for parents and the child, in order to promote their well being;
 - (d) setting up 'abortion information centers', a contact point for forced abortions, and organize platform days, symposia and theme days;
 - (e) providing opportunities for help after abortion (or sexual abuse) through so-called healing groups/retreats, peers' days, commemorative monuments and/or memorial services; the foundation also aims to offer women (post abortion) consolation, information, support and healing;
 - (f) providing sexual education to help prevent unplanned pregnancy (prevention through education), sexually transmitted diseases STD's etc., as well as offering medical diagnosis of STD's and other related diseases;
 - (g) attention to monitoring and ensuring implementation of due care standards surrounding abortion, also availability of an adequate offer of legal assistance with regards to the abortion issue;
 - (h) promoting the kind of legislation and regulations, as a result of which more restraint and a careful approach towards abortion will be taken, with more options coming into being for expectant mothers to give up their (not yet born) baby, as well as issuing advice and proposals to the government in this matter;

all in the broadest sense of the word.

The foundation aims to operate on both micro and macro level. The foundation is open to cooperation with other individuals and/or legal entities as well as with other organizations in the above mentioned areas.

Strategy continued:

The foundation is established for an indefinite period.

The assets of the foundation are to be formed through sponsoring, subsidies, grants, donations, inheritances and legacies and other income resources.

Board members receive no remuneration.

Comments

The board is grateful for all the generous donations this year, which allowed us to continue this work.

In 2022 we were able to, amongst other things, do the following:

- Advertising campaign social media
- Purchased 18 week baby models for government campaign
- Printed various stickers and cards
- Car advertising
- Made 6 week baby models for inclusion in government campaign
- Some travel expenses

Along with this, office supplies such as A4 paper, SD's/USB's, operational costs such as websites, phone, admin software, insurance, banking, post office box etc.

Activities

24.6.2022 marked the day that RoeVsWade abortion was overturned in America. 2 days later, Missouri was the first state to sign papers to end abortion. Many years ago Salome had been asked to help with legislation in Missouri regarding exclusion of babies conceived in violence.

Here in The Netherlands government had numerous debates and voting concerning abortion. AbortusInformatie.nl stood outside the Senate both times with our public education display.

Before voting we sent politicians in Tweede Kamer and Eerste Kamer models of babies 6, 11-12 and 18 weeks from conception, so they would know what they were voting about. The contents of the box catered for the 3 topics: to do away with the 5 day waiting period, make the abortion pill available via the family doctor (instead of just clinic or hospital), and discussions about embryo's. Kuipers discussed plans to redefine the term 'embryo' to be an 'in tact' or 'not in tact' embryo for experiments, not viable, by creating them with no brainstem or spinal cord. We prepared in advance for these discussions.

Only SP 'returned to sender' 'no longer interested in the attached mail item'. Some were positive.

We continued our public education work not only outside government, but with other awareness displays, including a prolife day with the Catholics in The Hague, by the side of the road as Opwekking participants left the camp ground in Bid-dinghuizen, and in the city of Zwolle. Here the BOA used his position to intimidate, disrupt, hinder and in the past even prevent a permitted demonstration. Thankfully after our 3rd request the police were called, who graciously mediated so we could continue our display at the planned location, instead of down the side street. Both 50 km per hour with traffic lights but hardly be able to see our message.

We were asked to give a presentation on abortion to a political party which was held inside the Tweede Kamer in The Hague.

Visited some abortion clinics, eg on International Day of the Unborn Child. Met with a new prolife leader to discuss various issues. Some people gave paintings.

On 11.11.22 we launched our new advertising on the side of a van.

We also ran an advertisement for 7 days on social media, facebook to expand our visibility.

Various babies have been born after contact with us. So wonderful they get to see the light of day. Various requests for help came in, including some requests for AbortusPilStopper (abortion pill reversal). Also offered baby articles. So wonderful seeing them pregnant, the baby now wanted by both parents. Work on healing programs continues www.abortusverwerken.nl, along with various requests that came in as background advisory role for another healing program we helped get started/initially translated.

Traffic to our websites: 2022 saw over 144.000 on our Dutch website, total websites 233.000 totalling around 1.3 million views, i.e. between 5.5 and 6 pages per visit.

We were followed by TV program EO Crux, for a special at the beginning of the week for life “Kiezen voor het leven” https://www.npostart.nl/crux/29-10-2022/VPWON_1336231 and can be seen here <https://www.eo.nl/programmas/crux/afleveringen> Was seen by 436.000 the weekend of airing. How many have watched it afterwards at npostart is unknown. 'Mooi en waardig gedaan.' 'Wat vertelde je op de EO een prachtig en ontroerend levensverhaal Salome. Het emotioneert me..'

Contacted by students of 3 universities for interviews, including a talkshow. An article appeared in Zagreb Croatia. And various google alerts.

One of the responses to our abortion video was: “Everyone should have to watch this before making the decision to have an abortion... that’s one of the most heart wrenching things I’ve ever seen.” World News placed our video on their site https://article.wn.com/view-bitchute/2022/05/12/Abortusrealiteit_the_reality_of_abortion/ in 2022 but has now been blocked, for “abhorrent violence”. It can still be seen here: <https://www.brighteon.com/4a2fb4b1-c266-428c-a467-f30e1d7d59d7>

In 2022 we also uploaded a video showing 4 and 6 weeks after conception, alive in the womb, with beating heart: <https://www.bitchute.com/video/HQW7byfdCavn/>

We also made a video concerning an Oxford study in 2016 which claims that the heart starts to beat earlier than previously thought: around what they termed “day 16 of human pregnancy” – you can watch it beating here: <https://tinyurl.com/ai-heart-16>, being discussed: <https://www.bitchute.com/video/mRIRYs9uzHeP/> Censorship continues, for example on youtube, and twitter. Termed 'unnecessary bloodshed' for example.

Future strategy

The coming years promise to be dynamic years.

A large part of our activities is related to the amount of money that is donated. We operate solely on donations from people like yourselves.

We are preparing for the future, in a sustainable manner, including innovative ideas, bringing together people, knowledge and skills. We hope to expand our support bases with people interested in sharing the realization of our goals, on both micro and macro level.

Donors and volunteers

Since its inception, a small army of helpers have aided AbortusInformatie.nl, with some 90 volunteers having helped us in some way or the other with their precious time and skills/talents, including wonderful brave people who help do street awareness displays, etc.

We are appreciative of all who contributed so generously with their gifts, so that we were able to further this work in 2022. We look forward to all the changes ahead of us! Would you like to join us? Let us know what you would like to do!

Special thanks

We are incredibly grateful for the people who help and support us. Thank you for your support, trust and commitment. Grateful for men, women and young people who, with functioning conscience and conviction, stand up courageously and join us, to defend the lives of babies who have no voice themselves. We want to thank you all for your support and commitment in recent years. Thanks to you, we have been able to work on building this organization, to innovate a new voice in the field of human rights, not only through education, but also through actual practical help. Many have helped with this. We are extremely grateful for all those people who have helped make everything possible.

If you see the value of what we are doing, and you would like to partner with us in educating about abortion, then please e-mail us at info@abortusinformatie.nl or info@abortioninformation.eu, find out or let us know how you would like to help, or make a donation by using the bank data below. That would be so appreciated!

AbortionInformation.eu and AbortusInformatie.nl works on exposing this enormous human rights issue. To do this, we need to allow people to see it for what it really is. In just a few minutes people understand the humanity of the unborn child, and what abortion does to them, so they can make educated decisions based on relevant information.

We would love to step up the exposure with your help, on our awareness displays, help etc. - help us arrange presentations for your friends, a group, church or home group, so they too can think about how they can get involved.

Would you like to help us make a difference? We can't do what we do, without you! Join! You can also support us and make a contribution to help further this work.

How?

Your donation can be placed via ABN Amro in the name of our charity (stichting) AbortusInformatie.nl
